

IRON COUNTY RECORD.

Vol. 16.

Cedar City, Iron County, Utah, Friday Nov. 5, 1909.

No. 48

BP. RICHARDS AND COUNSEL HONORED.

Respect Shown to Retiring Bishopric
of Parowan.

Excellent Time Had and Splendid
Program Listened to by Those
in Attendance

Parowan, November 3.

An entertainment was tendered to Bishop Morgan Richards and first counselor Wm. H. Holyoak on the 29th ult. by the different associations of the ward in appreciation of the long and faithful services rendered by these brothers. The Opera House in which the affair took place was packed, and all listened with great pleasure to the following program:

Anthem by the Choir, "Light and Life Immortal."
Prayer, Bp. Adams.
Anthem, "I have set Watchmen on Thy Walls."

Address, Bishop Mitchell.
Reading, Wm. L. Adams.
Talk, Pres. L. N. Marsden.
Solo, George Durham.
Remarks, Wm. T. Morris, Superintendent of Sunday School.

Ada McGregor sang in a most exquisite manner and tone of voice "The Heart Bowed Down."

Mrs. Barbara Adams gave a speech in behalf of the Young Ladies Association.

Quartet by Geo. Durham and company.

Mrs. Sarah Ann Adams president of the Relief Society, gave some interesting items concerning that organization.

Mary Marsden represented the Primary and after speaking presented a number of Primary children who sang nicely and then presented Bishop Richards and Bro. Holyoak with numerous and beautiful tokens of flowers.

1st Assistant Wilford Day then presented the two with a family Bible. On the inner cover was inscribed the name of each and "From the different associations of the Parowan Ward as a token of the love, respect and esteem for faithful services in our behalf."

A very delicious picnic was then partaken of by all and an hour's dancing followed.

The committee who arranged the affair consisted of Bp. Walter Mitchell and Councilmen, Mamie D. Orton and Libby Hoyle, Mary M. Marsden and Wm. T. Morris.

Great excitement prevailed in the County seat last Saturday evening when two of the five government surveyors rode into town bearing the news that they had lost one of their party. The last they had seen of him was just before sun set and at dark he had not appeared. The surveying was being done in the Parowan canyon and is very rough and precipitous, and they feared he had fallen from some cliff. Accordingly two of the remaining four came to town and the other two stayed in watch at the camp. A number of citizens were soon on the way back and when some miles up the canyon the crowd met the lost surveyor coming to town. He had dropped his tape from a cliff with an elevation of about 500 feet and as it was quite expensive had gone down the declivity to get it. He undoubtedly had great difficulty in finding his way out and no doubt was lost but got on the track to town after a strenuous tramp.

George Wimmer, who is suffering from Typhoid, has taken a turn for the better.

A farewell party was given last evening in the opera house for the benefit of Hans J. Mortensen, Jr., who leaves for Denmark on a mission.

Brother George Holyoak and wife left for Panguitch on the 27th to attend to business and visit with his sister and family, Mrs. John LeFevre.

The sudden drop in the temperature of our climate, which occurred the fore part of the week was the cause of a great many of older people having rheumatism.

Nathan Benson, who had his hand blood-poisoned about a week ago causing him great suffering, is feeling better, and the afflicted hand and arm are not so swollen.

There are new arrivals at the homes of the following: A girl at the home of Mr. and Mrs. J. E. Mortensen; a girl at the home of Mr. and Mrs. Eugene Daiton; a girl at Mr. and Mrs. John Burke's of Moscow.

At the election last Tuesday the following candidates were elected: Mayor, James Ollerton.
Treasurer, Wm. Norris.
Recorder, Mrs. Stella Rowley.
Long Term Councilman, Harmon D. Bayles.

2 year Councilmen, Alvin Benson, Wm. T. Morris, Samuel C. Mortensen.

Croup is most prevalent during the dry cold weather of the early winter months. Parents of young children should be prepared for it. All that is needed is a bottle of Chamberlain's Cough Remedy. Many mothers are never without it in their homes and it has never disappointed them. Sold by Palace Drug Store.

Say, Mr. Farmer.

You usually get all the modern and convenient machinery extant with which to make your work easier and more economical. But did you ever think that your wife ought to have some of the conveniences that go to make her life worth living? If not, why not? You love her and want to see her live and enjoy life with you. The it is up to you to read the Leigh Furniture & Carpet Co. ad. this week. It tells how you can secure a Special Hoosier Kitchen Cabinet for only \$1.00 a week. This cabinet is a whole kitchen in itself. Step in to the store and let the manager tell you about it. Get one and notice how beautiful will be the smile on your wife's face when she meets you.

Many school children suffer from constipation, which is often the cause of seeming stupidity at lessons. Chamberlain's Stomach and Liver Tablets are an ideal medicine to give a child, for they are mild and gentle in their effect, and will cure even chronic constipation. Sold by Palace Drug Store.

Thanksgiving.

This is the month in which there is a day set apart for national thanks giving, though a cheerful heart is thankful every day. It is a good thing, however, for the people to be reminded periodically of the fact that as a nation we have much to be thankful for, and whether we celebrate the day simply or with enough turkey and stuffing to invite indigestion, let us mark it by a resolve to be better farmers and better citizens than ever before. None of us is too humble or obscure to exert a wholesome influence, day by day. If we do nothing more than greet our neighbor with a cheerful face and a kind word we shall shed a benediction over an entire community. Let us therefore give thanks not only upon one day of the year but every day of our lives.—Farm Journal.

The old, old story, told times without number, and repeated over and over again for the last 36 years, but it is always a welcome story to those in search of health—There is nothing in the world that cures coughs and colds as quickly as Chamberlain's Cough Remedy. Sold by Palace Drug Store.

Alonzo Higbee returned the first of the week from the Stateline country, where he had been to do some assessment work upon some mining property. He reports that it will not be long now before that locality will take on renewed activity. The power plant that is being erected in Modena is rapidly nearing completion, and will soon be in commission, after which the Gold Springs property will be in active operation. The power will also be transmitted to Pay and Stateline, which will be the means of more development work being done, and eventually make out of some of the mines that are now lying dormant producers of the very best type. Mr. Higbee states that indications point to a lively period of mining activities in the near future on the western end of Iron County.

Results of the Election in Cedar City Last Tuesday.

Republicans Capture Everything In Sight.— Woodbury Succeeds Himself.

For Mayor.

JOHN S. WOODBURY, Rep. 212
JOHN PARRY, Dem. 79
H. H. McCONNELL, So. 48

WINNERS IN THE GUESSING CONTEST.

SEVERAL SENT IN CORRECT GUESSES, BUT THE
FOLLOWING WERE FIRST.

MISS LOREEN HAIGHT
MASTER HURSCHELL URIE.

The Lessee of the Record has mailed checks to the lucky contestant.

CLIP THIS COUPON CHILDREN, AND GO TO SHOW
MONDAY NIGHT.

This Coupon will admit any child under 13
years of age to the GEM THEATRE
Monday, Nov., 8, 1909.

Compliments of The Gem Theatre.

STREAMS PATROLLED.

Very Few Carcasses Found in
or Near Coal Creek.

During the early part of the week several men were sent up the canyon for the purpose of seeing if there were any dead carcasses lying in or near the water.

A careful search was made by the gentlemen and but five carcasses found, and only one of them in the water. These were burned and thoroughly destroyed.

For several months past numerous complaints have been made that our canyon was simply littered with dead animals. This caused the City Council to send men along Coal Creek and its tributaries to make a thorough

search for carcasses. No pains were spared to investigate every nook of the streams and the above mentioned number were all that could be found. This should set at rest the idea that our water is polluted with decaying carcasses, and banish the fear that the typhoid germs are coming from our culinary water.

Lame back comes on suddenly and is extremely painful. It is caused by rheumatism of the muscles. Quick relief is afforded by applying Chamberlain's Liniment. Sold by Palace Drug Store.

Let us try and give thanks in a substantial way this year. Throw aside a little of our natural selfishness and see if it is not possible for us to make others feel like giving thanks.

SENSIBLE ADDRESS BY MR. DUDLEY

At the Tabernacle Last Monday Night Farmers Listened to
Interesting Talk on Conserv-
ing of Water Interests.

For once the people of Cedar had the privilege of listening to a talk in which there was no hot air and nothing of the fantastic.

The gentleman, Mr. Dudley, who was here in the interest of railroad men, looking into the feasibility of building a railroad through this country, talked to a gathering of the farmers of this place and gave them some advice that is of value to them and which will no doubt be the means of the water owners consolidating their water interests in order that the most may be gotten out of it.

Among other items of interest that he spoke of was that of the resources which would justify a railroad coming into this locality, and he said that as yet the resources here would not warrant any company putting a road in. According to Mr. Dudley it is estimated that at least 95 per cent of the railroads built were non-productive at their inception and it depended upon the development of the country through which they pass for their maintenance.

He stated that this section of country was capable of advancing 500 per cent in strength along agricultural lines. The people were advised to get their irrigation water on some economic basis, consolidate all the water interests, thereby making it possible for a greater population and consequently greater producing country. This would then be more of a drawing card than this country has at present for a railroad.

Mr. Dudley stated that there were opportunities for a great city in southern Utah, and that Cedar had the chance of becoming that city, provided that the citizens did not pass up the many chances that present themselves from time to time. Cedar is ideally located for a large commercial center for southern Utah, having all the resources necessary, they only lack proper development. Her citizens are progressive, any by consolidating the water interests and acting as a unit the day is not far distant when a railroad will go through here to the Grand Canyon and tributary country.

Mr. Dudley has had considerable experience in the handling of irrigation water and is well versed in the economic use of the same. He gave to the citizens assembled much advice along these lines that if properly followed will result in great benefit to this country.

At the close of his talk a vote was taken that it be the sense of those present that the water interests of Cedar be consolidated and that a committee of five be appointed to study the situation and devise some basis upon which to unite. The chairman who was appointed desired to confer with the presidents of the various water companies with a view of being able to select men who would be fully capable of devising some means of arriving at the best solution of the problem and the best methods to take to secure consolidation.

Read and Take Notice!

On each package of butter manufactured and offered or exposed for sale in the State of Utah there shall be stamped upon the wrapper or package the name of the maker thereof, with the address of same and [the actual number of ounces contained in said wrapper or package at time of its manufacture.

Section 2. Penalty for violation. Any person, firm or corporation who offers to sell, or furnishes, or delivers for sale, any butter unless marked as above specified, shall be deemed guilty of a misdemeanor.

Approved this 15th day of March, 1907.

Rolling of Pure Food Bureau May 12th, 1909. Any person, firm or corporation who offers for sale butter weighing less than one-half ounce than the net weight contained on wrapper will be prosecuted.

WILLARD HANSEN,
State Dairy and Food Commissioner.
